Dear Sean,

I am writing this letter to commend you on the services of the Building Trades Association. I have received several jobs by being involved with the association.

The projects I received are both commercial and residential projects. My company has been able to do the construction on commercial projects ranging from \$30,000 to \$80,000. I have received 6 jobs through Building Trades Association. We have also received smaller residential work that we have completed. In addition, I have been able to reach out to other members in my area and network with them to forge relationships for future projects as well.

I have been impressed with the level of customer service and the general interest and attention the Building Trades Association has provided me. They have taken a sincere interest in helping me to grow my business and for this I am grateful and I would highly recommend anyone involved in the building and construction industry to join and use the services of the organization.

Respectfully yours,

Claudia Mendoza
