

February 12, 2009

Dear BTA:

I would like to thank you for the great service and the plethora of opportunities made available to members of the Building Trades Association. Honestly, when I received the information in the mail about membership, I thought I was simply renewing our existing membership. So I figured, at least for only \$99 we could continue to get our name out there.

Much to my surprise, shortly after paying, I received a phone call from a very helpful Dennis with the Building Trades Association welcoming me as a new member. Of course I then realized that I was not renewing but initially signing up. And that's it! I have access to the job bulletin with countless opportunities that was worth the \$99 alone; not to mention other services like "Request a Bid" and "Insurance Services."

The only thing I regret it that our company wasn't a member sooner. I look forward to our continued partnership!

Thank you,

Kate Rekart  
Marketing Manager
